

INVITATION

3rd EURAXESS Links Conference, Rio de Janeiro, 11 May 2016

Linking Researchers Worldwide

The first-class premises of the Pestana Rio Atlantica, Rio de Janeiro, will host the third Global EURAXESS Links Event "Linking Researchers Worldwide" on Wednesday, 11 May 2016.

A major networking event for the European and Brazilian research communities

Organised by the European Commission, this conference provides a unique opportunity for European and Brazilian researchers to network and interact with each other. Participants are invited to join us in the endeavour to further strengthen the scientific relationship between Europe and Brazil. High calibre speakers from Europe and Brazil will present opportunities this relationship offers to researchers pursuing international careers.

- How can we improve scientific collaboration and mobility between continents?
- How can science act as an engine for growth in a globalised world?
- How to create an attractive environment for international researchers?
- How can networks such as EURAXESS contribute?

Extra opportunity: join the hands-on session to be trained and get hints and tips for a successful application for European research grants.

Expand your network and get new insights by joining this Global EURAXESS Links Event.

EURAXESS Links: Linking researchers worldwide
